

Twist Tourism Cloud Solutions

TWIST-TURISMO

A Twist-Tourism is a technological platform developed for the tourism sector.

It provides Cloud Applications Services and allows all customers to share the same services in a unique and innovative way.

Therefore, it reduces the cost of the technological infrastructure of the end customers and the value of the service used.

There are also many other advantages regarding updates, backups, management, global permissions and service resources.

 QUALITY

 SIMPLE

 INTUITIVE

CHANNEL MANAGER

From large online booking channels to small portals, a Channel Manager allows you to connect with all portals that you need to sell your Accommodations worldwide.

GLOBALBOOKING

Booking Engine.

Globalbooking is a booking engine that allows its guests to make reservations through your website.

BENEFITS

- Increase bookings made directly on your website.
- Save time, and it's easy to use.
- Better data to make decisions.
- You have an advantage over competitors who don't have a booking engine.

PLANS

Choose the most suitable plan for your Local Accommodation.
